

Youth Venture of Central Iowa Presents: Community Coffee

Community Coffee:

With an idea for empowering at-risk youth through work experience, Community Coffee is setting out to create a professional and meaningful work environment. In one of Des Moines' most vulnerable neighborhoods, an unused coffee bar sits inside Culture Inc., a local non-profit. This team is taking the opportunity to start a coffee shop. Not only will it be the only devoted coffee shop in its area, but it will be providing professional experience for at-risk youth in the area. They are currently raising funds, as to get the northeast side of Des Moines caffeinated as soon as possible.
